

HOT TUB COMPARISON

While nothing can replace checking out a hot tub or swim spa in person, our comparison chart can help you narrow down the brands you might want to see for yourself. We've highlighted the features we think are important and broken down which brands offer them. Some are standard features, while others are options available for an additional cost; check with your local dealer to determine what comes standard. You'll also see which manufacturers have the TradeCertified™ endorsement. These companies have been thoroughly reviewed to ensure they meet certain manufacturing and customer service benchmarks. To learn more about this program and the TradeCertified companies, see page 56.

SWIMCROSS EXERCISE SYSTEMS BY ENDLESS POOLS ENDLESSFITNESS.COM	5 YR	7 YR	5 YR	5 YR	\$15,900-\$29,900	Current Technology: A total of five swim jets, driven by two pumps, provide a steady stream of water more powerful than the average jet. The swim jet uses a venturi effect, not air, to draw-in more water, effectively multiplying the volume of water. This design results in stronger resistance with less turbulence than others on the market.
